SCHOOL PROFILE

Since 1993, Groupe GEFOR, a European Training Group, has been training efficient and recognised professionals, while applying continuous efforts to **adapt to company demands**, so that a programme effectively prepares one to succeed in exams and integrating the job market.

The group organises **career-oriented programmes** open to students, employees and job seekers who desire to train, retrain or progress in their careers.

In order to foster the acquisition of knowledge, interpersonal skills and know-how related to examinations as well as to the practice of the targeted career, it favours pedagogy that **combines theory and practice**, while strongly urging its students to develop their action potential on a **European scale**, and to this end, to undertake part of their programme abroad, thanks to its network of partner companies.

The FEDE is an INGO International Non-Governmental Organisation and a supranational institution that was created in 1963, which is endowed with participatory status with the Council of Europe.

It federates an international network comprised of over 500 higher and professional education institutions in 35 countries across 4 continents, which share a common project that is hinged on academic excellence, pedagogical innovation, scientific research and openness to the world.

The FEDE delivers 90 European degrees that are available in English and in the national language, from the Foundation Degree, the European Bachelor's Degree, the European Master's Degree to the DBA Doctorate of Business Administration. The FEDE counts an international network of over 180,000 alumni.
