Essential to every company, the payroll administrator is an expert in figures and personnel administration. They prepare pay slips, are the key contact for social security bodies, management and employees, and also ensure that employment law is applied.

With a good command of computerised payroll tools, they can work in companies or accounting firms, adapting to the specific features of each sector. The Foundation Degree: Payroll Administration trains professionals in payroll techniques, employment law and administrative management.

LEARNING OUTCOMES

- Master payroll techniques
- Know the applicable regulations
- Understand the players involved in payroll
- Act as a point of contact for social security bodies
- Explain the payslip to employees
- Conduct a payroll audit
- Be familiar with the applicable regulations and the social legal environment
- Conduct a payroll audit and social monitoring
